ANGA COM 2018

At ANGA COM 2018 visitors can expect to see a far greater range of exhibits than in the previous year. At the time of writing, ANGA COM had reached a new record with registrations from 500 exhibitors. In addition to the number of companies, the exhibition area has also increased. A total of 36 nations will be represented.

Says Dr. Peter Charissé, managing director of the ANGA COM: „With registrations from 500 exhibitors, we have achieved the best result in the history of ANGA COM. We are entering the final phase of preparations with great verve. This year, visitors will be able to look forward to many product innovations and even more exciting discussion panels than in 2017.”

Dr. Peter Charissé

And indeed, the extensive congress program has been expanded again compared to the previous year and now offers a total of 34 panels. True to the motto “where broadband meets content”, the main topics focus on current developments in the broadband markets as well as in audiovisual media.

The congress program has been restructured and expanded to include 34 event panels. The highlight of the international part of the program, which consists of a total of 16 English-language panels, is the international CTO Panel on the first day ANGA COM. The speakers are Michael Fränkle (SVP Networks & CTO, TDC Group), Thomas Helbo (CTO, Com Hem), Manuel Kohnstamm (SVP & Chief Corporate Affairs Officer, Liberty Global), Dr. Eric Kuisch (CTO, Vodafone Deutschland), Bruce McClelland (CEO, ARRIS) and Ludwig Modra (CTO, Tele Columbus).

A total of 13 technology panels in English will be addressing topics such as DOCSIS 3.1, FTTH, WiFi, OTT, HFC networks, cloud services, next-generation multi-screen platforms and Big Data.

Further highlights include:

- The broadband and media summit with Deutsche Telekom, ProSiebenSat.1, Sky, Unitymedia and Vodafone
- TV vs. streaming - new content? New partnerships? With Amazon Prime Video Germany, Constantin Film, RTL Television, Deutsche Telekom and Vodafone
- Broadband Day - Gigabit Now! in cooperation with the German Federal Broadband Office and VATM
- NewTV: AppTV, Cloud TV, VR and AR with Discovery Networks Germany, Media Group RTL Germany, ProSieben SAT.1 Media, Deutsche Telekom and ZATTOO
