## ANGA COM 2019

At the time of writing, ANGA COM 2019 has reached the record level of the previous year with more than 500 exhibitors. The exhibition area will also increase again compared to last year. A total of 35 nations will be represented.

Says Dr. Peter Charissé, Managing Director of ANGA COM: "This year, we have a particularly large number of new additions

in the areas of Fiber and AppTV. Our trademark, the close link between broadband and media, is apparently hitting the industry trend better than ever. We are particularly pleased that corporations and medium-sized companies are equally strong represented." He adds: "We have further expanded our conference programme and significantly upgraded new topics such as 5G, Streaming, Big Data and Smart City."

Dr. Peter Charissé

### Extended conference programme

The conference programme has been extended to 36 event panels, of which 18 will be in German and 18 in English. Among the highlights are:

- International CTO Summit with ARRIS, Liberty Global, Sunrise Communications, TDC, Tele2, Vodafone and WISI
- International Content Summit with Eutelsat, freenet, HD PLUS, M7, Metrological, Nordija and Synamedia
- Broadband Summit „Fiber Roll-Out on the Test Bench“ with Deutsche Glasfaser, Deutsche Telekom, EWE TEL, NetCologne, Tele Columbus, Vodafone and Unitymedia
- Media Summit „Streaming as a Game Changer for Film and Television“ with Amazon Prime Video Germany, Bavaria Film, Discovery, ProSiebenSat.1, Mediengruppe RTL, Vodafone and ZDF
- Broadband Day Smart City with free access for all visitors upon prior online registration

### Strategy and technology panels

The strategy panels address, among other things, the following key topics: 5G, AppTV, OTT, Personalized TV, Big Data, Artificial Intelligence, Smart Home, Copy Right, Media Law and Platform Regulation, Start-Ups.

A total of 13 technology panels in English will address the following topics: DOCSIS 3.1, 10 Gigabit, 5G, FTTH, WiFi, Cyber Security & Safety, Cloud Services, Network Virtualization and HFC Infrastructures.

The new ANGA COM App enables a further improved preparation of your exhibition and conference visit.
